

Follow Me

Demis Roussos

Follow me to a land across the shining sea
Waiting beyond the world that we have known
Beyond a world we dreamed could be
And the joy we have tasted

Follow me along the road where only love can see
Rising above the fully of the night
Into the light beyond the tears
And all the years we have wasted

Follow me to a distant land as mountain high
Where all the music that we always kept inside will fill the sky
Singing in the silence where the heart's real
While the world goes on turning, turning
Turning, follow me

Follow me to a land across the shining sea
Rising above the fully of the night
Into the light beyond the tears
And all the years we have wasted

Follow me to a distant land as mountain high
Where all the music that we always kept inside will fill the sky
Singing in the silence where the heart's real
While the world goes on turning, turning
Turning, follow me

Take my hand
And we'll find the land
Beyond the shining sea
Follow me
