I'll Be Your Friend

Demis Roussos

I will never leave you, I will not deceive you, I will always be your friend. I will never leave you, I will not deceive you, Ill love to the very end. Ill be your friend and I will never let you down, Whatever happens I will always be around, When you're in troubles I will be right friend for you, I will help you whatever you do. We were lovers long ago, I still care for you, I want you to know. Ill be your friend and I will never let you down, Whatever happens I will always be around And when you need someone I wont be far away, Friends forever, not only today. You found someone else and I had to go, But I'll stay old friend, darling don't you know. Ill be your friend and I will never let you down, Whatever happens I will always be around And when you need someone I wont be far away, Friends forever, not only today. I will never leave you, I will not deceive you, I will always be your friend. I will never leave you, I will not deceive you, Ill love to the very end.
