

Island Of Love

Demis Roussos

My love waits by a lonely shore
Grey eyes that look out for me
Trade winds, that sealed our destiny
Call out across the sea from our island of love

Island of love, island of dreams
Bringing her love to me
Send her my love, tell her my dreams
Tell her to wait for me

Warm nights under a summer moon
Soft eyes, that said hello
A tender touch that says: "I want you so"
A longing takes me back to my island of love

Island of love, island of dreams
Sun and a wine-dark sea
Send her my love, tell her my dreams
Bring back her love to me

Island of love, island of dreams
That's where she waits for me
Island of love, island of dreams,
Island of fantasy
Send her my love, tell her my dreams
Bring back her love to me
