

Lament

Demis Roussos

I've long awaited for the day
That comes to set me free
And all I ask
As I'm a fool
Is love for you and me
For now and each and every day
The moon, it changes us all
All the misery lies
Set to blind your eyes
All in all
From seeing you

All I need is a simple truth
Cause I believe in you
A story telling silent order make believe us true
Cause I will know
A time to climb above my lonely soul
I reach out with my heart
To the moment divine
And feel my love grow

Freedom divine
Freedom divine
Freedom divine
Freedom divine
Freedom divine
All I need is a simple truth
Cause I believe in you
A story telling silent order make believe us true
Cause I will know
A time to climb above my lonely soul
I reach out with my heart (Freedom divine)
To the moment divine (Freedom divine)
And feel my love grow
Freedom divine
Freedom divine
Freedom divine
