

No More Boleros

Demis Roussos

What can I say
There's an empty space
Where your love filled my life
And I know
That a part of you will always be a part of me

One summer night
And the sky is full of wishes
That won't arrive
How can I be
In a world without your eyes to look at me

No more boleros
No more nights to dance the dance of love
Only lonely hearts
No more boleros

I hear the song
And your arms always make me feel so warm
Now you're gone
I'll be dancing on alone

No more boleros
No more nights to dance the dance of love
Only lonely hearts
No more boleros

No more boleros
No more nights to dance the dance of love
Only lonely hearts
No more boleros
