

So Dreamy

Demis Roussos

How was I to know
That from our very first hello
I'd feel so dreamy (so dreamy)
You came rushing in
With all the promises of spring
When I was lonely (so lonely)
Everything she knew
Almost unreal because of you
I felt so dreamy (so dreamy)
Love had come to me
So very unexpectedly
I was so lonely (so lonely)

Dreaming of the time
I'll hear you say that you'll be mine
Until the end of time
All I ever knew could never be compared to you
And it's so far behind
Dreaming for a while
Each time you make me realize
That all I see is real
I could never find the words to say
The way I feel

Hello morning sun
Another day has just begun
And it's so dreamy (so dreamy)
Where can I begin to say the love I feel within
I feel so dreamy (so dreamy)

Dreaming of the time
I'll hear you say that you'll be mine
Until the end of time
All I ever knew could never be compared to you
And it's so far behind
Dreaming for a while
Each time you make me realize
That all I see is real
I could never find the words to say
The way I feel

How was I to know
That from our very first hello
I'd feel so dreamy (so dreamy)
You came rushing in
With all the promises of spring
When I was lonely (so lonely)
Everything she knew
Almost unreal because of you
I felt so dreamy (so dreamy)
Love had come to me
So very unexpectedly
I was so lonely (so lonely)
