

# Time

Demis Roussos

Time people say it passes by oh so fast  
I'm am keeping all those hours here inside  
Time bringing back an August sky from the past  
And all the summer flowers that never died  
I see the cafe where we meet  
That old guitarist in the street  
Taste the red wine that we shared

Time how can we forget those days  
Time is sometimes on your side  
Time gifts of summer waiting there  
Ahhh We wait for time and time  
Even when were apart  
We keep that summer here in our hearts

Time takes us to the place we met long ago  
Oh it's like an island in a world of care  
Time shows us things that we forget when were low  
So we close our eyes and then it takes us there  
A fishing boat along the coast  
The cards we wrote and didn't post  
I'll see you in the old times square  
Is still there

Time how can we forget those days  
Time is sometimes on your side  
Time gifts of summer waiting there  
Ahhh we wait for time and time  
Even when were apart  
We'll keep that summer here in our hearts  
(Even when were apart  
we'll keep that summer here in our hearts)

And when the world goes round to fast  
We sail away into the past  
And though love has no reason or rhyme  
I know it's here for all time

Time gifts of summer waiting there  
Time is sometimes on your side  
Oh Oh Oh  
Time how can we forget those days  
Ahhh we wait for time and time  
Even when were apart  
We keep that summer here in our hearts
