

# Died in My Sleep

Demon Hunter

I see now we're all that's left  
I can't begin to hold my breath, for something else

We gave in, gave up on hope  
We left them frankly nothing at all  
To free themselves

Then I woke to find you here, I felt the lie  
So you take the fire inside, break the silent sky  
I thought I died, died in my sleep  
How can this be?

No witness, no means to end  
We cannot wait to keep this in  
To free ourselves

Then I woke to find you here, I felt the lie  
So you take the fire inside, break the silent sky  
I thought I died, died in my sleep  
How can this be?  
Died, died in my sleep  
How can this be?

Died, died in my sleep  
How can this be?  
Died, died in my sleep, died in my sleep  
How can this be?, how can this be?  
Died in my sleep, died in my sleep  
How can this be?
