

Infected

Demon Hunter

I still wonder when the medicine will take it's effect.
And The injection they made, it's all just left me the same.
It's hard to concentrate with echo's of your voice in my head.
From all you said, I'm still paralyzed.

But I'm almost out of breathe from saying things that I'll regret,
that I'll regret.
My time is over, I can't do this alone.

But I'm almost out of breathe from saying things that I'll regret,
that I'll regret.
My time is over, I can't do this alone.

I'm infected with you, pull the plug already.
Tell me before I go, that your infected with me.
I'm infected with you, pull the plug already.
Tell me before I go, that your infected with me.

I can't remember if I ever took a minute to say.
That if it had to be now, I'm glad it had to be me.
I can't recuperate, I'm never going to leave here alive.
Just help me throu this, don't let me die here.

But I'm almost out of breathe from saying things that I'll regret,
that I'll regret.
My time is over, I can't do this alone.

But I'm almost out of breathe from saying things that I'll regret,
that I'll regret.
My time is over, I can't do this alone.

I'm infected with you, pull the plug already.
Tell me before I go, that your infected with me.
I'm infected with you, pull the plug already.
Tell me before I go, that your infected with me.

I'm killing time just trying to find the words that fall so short of you.
I'm loosing sleep, I can't compete,
I'm giving up, I can't do this alone!
I can't do this alone!
I can't do this alone!
I can't do this alone!
