

Crazy Town

Demon

This town it's got no soul,
She sleeps with one eye open
They don't like strangers here
So keep on passing through
And if you hear the sound of
Screaming after midnight be sure
You don't stray on the wrong side
Of the tracks, cause tonight there's
A party for those bad guys
Tonight all hell is breaking loose

In crazy town you won't like the things you see
Don't hang around here or you'll be hanging from some tree
In crazy town you won't like the things you see
Don't hang around here or you'll be hanging from some tree

This is the time of year we're cursed
By moonlight madness, and our obsessions
Lead to dancin' on the moor
We're trapped inside a web that's spun
Throughout creation, we act like
Animals awaiting for the kill
Cause tonight there's a party
For these bad guys
Tonight it's the creepy reaper's ball

In crazy town you won't like the things you see
Don't hang around here or you'll be hanging from some tree
In crazy town you won't like the things you see
Don't hang around here or you'll be hanging from some tree

We don't take prisoners here
We eat them all for breakfast
We like a hearty meal before we go to sleep
The rats can pick the bones while
We crawl back in our hell hole
And let the day decide what action
It will take
Cause tonight there's a party for
Those bad guys
Tonight all hell is breaking loose

In crazy town you won't like the things you see
Don't hang around here or you'll be hanging from some tree
In crazy town you won't like the things you see
Don't hang around here or you'll be hanging from some tree
