

## Father of Time

Demon

In the beginning he gave us the word  
But a voice in the wilderness  
Can never be heard  
So he called for a father of time  
Called on the father of time  
I guess you've all heard of me  
I count the cost  
I was there at Calvary  
When he died on that cross  
I'm the father of time  
I'm your father of time  
And the world needs me now  
Like never before  
And the world needs me now  
Like never before  
I make the predictions  
I am your fate  
But when you're running with progress  
You hear me too late  
I'm the father of time  
Yes I'm your father of time  
And the world needs me now  
Like never before  
And the world needs me now  
Like never before  
Now I see destruction  
Flames burnin' high  
No need for the word now  
No father of time  
I'm the father of time  
Yes I'm your father of time  
And the world needs me now  
Like never before  
And the world needs me now  
Like never before
