

Heart Of Our Time

Demon

All around
So much change is taking place
Everywhere
We're moving in a different way
All around
You can feel the wind of change
It's out there
On the streets
It's beyond the wildest dreams
Can't imagine
Playing our part
Expressing the heart on our time
Playing for real
Expressing the way that we feel
Playing our part
Expressing the heart on our time
Playing for real
Expressing the way that we feel
Here we are
About to take the biggest step
The heat is on
Maybe we can make it yet
Reaching out
Trying to make the other side
What we're after
Face to face
Waiting for the moment when
We stand there
Playing our part
Expressing the heart on our time
Playing for real
Expressing the way that we feel
Playing our part
Expressing the heart on our time
Playing for real
Expressing the way that we feel
It's the only way there is
We have a chance to put things right
Gotta leave the darkest road
And head into the light
Playing our part
Expressing the heart on our time
Playing for real
Expressing the way that we feel
Playing our part
Expressing the heart on our time
Playing for real
Expressing the way that we feel
