

Hollywood

Demon

Hey you pretty boys and girls
D'ya really wanna make it?
I like the sexy ones
With the long blond curls
We'll supply the make-up
You don't need to know a thing about rock'n'roll
The record's already a hit
There's been a million sold

Straight out of Hollywood
Like all of our heroes
Straight out of Hollywood
We're going to the Rock Show
We're gonna take you all the way
Down Sunset Boulevard
We'll spare no extravagance
Straight out of Hollywood

Do you all wanna play some rock'n'roll?
Do you all wanna stand out in the light?
Who wants to drive a Cadillac?
Who wants to live in Beverly Hills?

Straight out of Hollywood
Like all of our heroes
Straight out of Hollywood
We're going to the Rock Show
We're gonna take you all the way
Down Sunset Boulevard
We'll spare no extravagance
Straight out of Hollywood
