

# I Still Believe

Demon

Ever stopped to wonder  
What it's all about  
In a world that's changing everyday  
We search for something  
Something to hold on to  
A simple faith along the way

Chorus

I still believe, I still believe  
That rock will rule the world  
In a time and a place of its own  
I still believe, I still believe  
That rock will rule the world  
In a time and a place of its own

There is a reason  
Why I feel this way  
There's nowhere else I'd rather be  
It's my religion, this is my life  
All the music and the songs

Chorus

As the feeling grows and the world it keeps on turning  
Here's to rock and roll and a world that keeps on turning

Chorus
