

# Let Me Out Of Here

Demon

Close your eyes and wait for me  
I'll see you on the other side  
A dream might last a thousand years  
But a soul will never die  
We must learn to use our gift  
We must communicate  
There's more of us who understand  
The more of us who wait

I still believe in Jesus  
Though I see him in a different light  
Now the cloak of ignorance  
Can't hide a star so bright

Everything is possible now  
We have seen the sign  
A higher state of consciousness  
A new found peace of mind  
The playgrounds of technology  
Now look towards the sky  
Run free you spaced out monkey  
For the sane man never lies

I still believe in Jesus  
Though I see him in a different light  
Now the cloak of ignorance  
Can't hide a light so bright

Why don't you let me out of here?  
Now there's nothing left to fear  
Why don't you let me out of here?  
Now there's nothing left to fear

All around is changing  
Now the ape's become of age  
But out there in the new world  
There's still suffering and pain  
And when you closed the door  
And threw away the key  
The past came back to haunt you  
Now it's time to set me free

I still believe in Jesus  
Though I see him in a different light  
Now the cloak of ignorance  
Can't hide a star so bright

Why don't you let me out of here?  
Now there's nothing left to fear  
Why don't you let me out of here?  
Now there's nothing left to fear
