

## Sacred Heart

Demon

I never promised you  
It would last forever  
We took it one day at a time  
But when I held you close  
I felt your desire  
I saw the love that's in your eyes

Sacred heart don't you bleed  
We got time on our side  
We just can't let love slip away  
Your all that I want  
Your all that I need  
I just can't let you go away

I know that you've been hurt  
Let's face this thing together  
Running away only makes things worse  
I've been down that road before  
Too many broken hearted  
There's no easy ride but we'll get there

Sacred heart don't you bleed  
We got time on our hands  
We just can't let love slip away  
Your all that I want  
Your all that I need  
I just can't let you go

All that I want is you  
And I won't let you down  
All that I want is you  
And I'm not fooling around

Sacred heart don't you bleed  
We got time on our side  
We just can't let love slip away  
Your all that I want  
Your all that I need  
I just can't let you go away
