

# Sound Of The Underground

Demon

Time and space, ghosts from the underworld  
Lives we shape, truth and the spoken word  
The future is waiting, the circle is set  
We move with precision

Night and day, God and the evil one  
Ice and fire, change that's gonna come  
The future is waiting, the circle is set  
We move with precision

Dance to the beat of the underground  
Hey all you creatures of the night  
Move to the sound of the underground  
Feel the rhythm, feel the life

Thoughts and dreams, life on a higher plain  
Wheels that turn, fate - a subway train  
The future is waiting, the circle is set  
We move with precision

Dance to the beat of the underground  
Hey all you creatures of the night  
Move to the sound of the underground  
Feel the rhythm, feel the life

There's a sound that keeps going round  
It's coming from the underground  
Dance to the rhythm, move in the light

We've got a long way to go  
We gotta ride on the tide  
We've come a long way for this  
We gotta ride on the tide

Dance to the beat of the underground  
Hey all you creatures of the night  
Move to the sound of the underground  
Feel the rhythm, feel the life
