

Take Me To Your Leader

Demon

Chorus

Take me to your leader
I have just arrived
I am from another place
Where everything's alright
Take me to your leader
Look into the sky
I am from another world
Where everyone survived

We are travellers, from the future
We can take you there
We are free men
On our journey
We've been everywhere

Chorus

We have watched you down the centuries
We have seen you grow
No more waiting
From this moment
We can let you know

Chorus
