

# Taking On The World

Demon

Whoa-oh-oh-oh we'll take the world this time  
Whoa-oh-oh-oh we'll take the world

Too many years in the wilderness  
This time we got it right  
We've lived too long in the distant past  
We're ready for the fight!  
There's an air of expectancy  
We're reaching for the sky  
And in the 21st century  
From the ruins we will rise!

The battle rages in every heart and every mind  
We stand like heroes and we will win the prize

Whoa-oh-oh-oh we'll take the world this time  
Whoa-oh-oh-oh we'll take the world

We'll ride the wave of emotion  
Everybody's on a high  
We'll lift the spirit of the nation  
Well at least we'll try  
We gonna take it all the way  
There'll be no turning back  
Gotta see the journey through  
And take our place at last

The battle rages in every heart and every mind  
We stand like heroes and we will win the prize

Whoa-oh-oh-oh we'll take the world this time  
Whoa-oh-oh-oh we'll take the world  
Whoa-oh-oh-oh we'll take the world this time  
Whoa-oh-oh-oh we'll take the world

Fighting for freedom, we've got a reason  
Survival's the name of the game  
Marching together, living forever  
That's our ultimate aim

Whoa-oh-oh-oh we'll take the world this time  
Whoa-oh-oh-oh we'll take the world  
Whoa-oh-oh-oh we'll take the world this time  
Whoa-oh-oh-oh we'll take the world

Taking on the world, taking on the world  
Taking on the world, taking on the world  
Taking on the world, taking on the world  
Taking on the world, taking on the world tonight
