

# Unbroken

Demon

Down every road that we take  
There's a journey where it never ends  
Twisting and turning it snakes like a river around every bend  
Out on the sea there's a ship that's been sailing for years round the world  
And we see the ghosts of the past  
But there's never a sound to the brave  
Time waits for no-one, not even the brave  
Time waits for nothing at all  
Love is the answer if you wanna save the world

Chorus

Unbroken

The wheels keep on turning

Unbroken

The highway keeps on burning

Fate is a card we're all dealt  
Sometimes mistaken for trust  
Love is the strongest emotion, so too is power and lust  
Fame is the price that we pay when our ego destroys all our dreams  
Faith is the comfort we seek when we're troubled by what it all means  
Time waits for no-one, not even the brave  
Time waits for nothing at all  
Love is the answer if you wanna save the world

Chorus

The steel wheel turns a thousand times  
The circle of life an endless line  
The colours fade to black and white and disappear into the night  
The steel wheel turns a thousand times  
The circle of life an endless line  
The colours fade to black and white and disappear into the night

Chorus
