

# Visions Of The Future

Demon

I was looking for something just a sign  
When I saw something moving in the sky  
Seemed to start a reaction there was fire  
Then the lightning it struck  
And the flames got higher

I wanted to run  
I wanted to hide  
Something just seemed to take over my mind  
I couldn't feel what was happening to me  
Everything just getting out of control

When the light came on I saw  
Visions of the future  
In the night I thought I heard  
Voices speaking to me  
When the light came on I saw  
Visions of the future  
In the night I thought

Started seeing these pictures on the wall  
It was the strangest of place, I'd never  
Been before  
Everything was so life like so real  
In the temple o' knowledge  
I felt no fear  
A feeling of power ran through my veins  
I was about to receive second sight  
I couldn't explain why they gave it to me  
Everything just getting out of control.

When the light came on I saw  
Visions of the future  
In the night I thought I heard  
Voices speaking to me  
When the light came on I saw  
Visions of the future  
In the night I thought

I wanted to run  
I wanted to hide  
Something just seemed to take over my mind  
I couldn't feel what was happening to me  
Everything just getting out of control

When the light came on I saw  
Visions of the future  
In the night I thought I heard  
Voices speaking to me  
When the light came on I saw  
Visions of the future  
In the night I thought I heard
