

War Games

Demon

Sound the early warning
Now put on your mask
Get behind the heat shield
They got poison gas
Missile knows the time and place
War-head set to detonate
Attack - let's blow-out
Attack - we'll blow-out

All those moving pictures
All those deadly strikes
Man there's so much hi-tech
What's a few more lives
Let's go out and kick some ass
We got weapons of a different class
Attack - we'll blow-out
Attack - let's blow-out

It's all on fire
The flames get higher
It's all on fire
The flames get higher

War the game that we play
Anytime anyday
You can find us we're out there
On the front line
Fight our units the best
North, South, East and West
We're the meanest there's no one
That can touch us

Got your marching orders
Got your battle cry
This ain't no manoeuvres
Now it's man to man
This is what your trained to do
Now the rest is up to you
Attack let's blow-out
It's all on fire
The flames get higher
It's all on fire
The flames get higher

War the game that we play
Anytime anyday
You can find us we're out there
On the front line
Fight our units the best
North, South, East and West
We're the meanest there's no one
That can touch us
