

# Wings Of Steel

Demon

Where the river meets the sky I wanna in ships of gold  
Where the night becomes the day  
The sunrise takes your breath away  
And all around the children sing  
That the new born will be king forever

Chorus

Carry me on wings of steel  
Let me dream then make it real  
Take me to heaven one more time  
Carry me on wings of steel  
Let me dream then make it real  
Take me to heaven one more time

Where innocence is real and all the things we love and feel  
They will never be again  
Won't you come away with me?  
And let your feelings drift away  
Now, forever and a day

Chorus

When we're standing in the dark  
And the beating of our heart  
Is the only sound we'll hear  
When we fly above the cloud  
With the angels singing loud  
Celebrating peace on earth

And all around the children sing  
That the new born will be king forever

Chorus
