

# Kill Your Memory

DemonLord

Often comes to my mind  
Living on the other side  
No body, no control  
I am just a soul

I'm flyin' with the wind  
Be afraid, I'm sougning  
I rattle your window  
Peacefulness have no more

Here I am left behind  
I'm going out of my mind

If my death was real  
Began my awful deal  
I would haunt every night  
Keep you in dreadful fright

I would squeeze you out  
Suck your tears and blood  
I would uproot your heart  
I would take you apart

Here I leave you behind  
I blot you out of my mind

Take this weight off of me  
I wanna kill your memory

By now I've closed my part  
I wanna be apart  
I wanna do my way  
Be far, be gone away

I always felt your fear  
That our end was so near  
I never understood  
How you thought it's good

Take this weight off of me  
I wanna kill your memory  
Recovering from misery  
I wanna kill your memory

I have nothing more to say  
This will be a better day  
It feels, as if you would still care about me  
But I'll kill your memory

Our past has now begun  
We'll never be close again  
Together, we never will...  
Your memory I will kill
