

# Return to Nowhere

DemonLord

Headless on an  
Endless highway  
No farewells  
Someday you will find  
Your Fortune

Adventures  
Heaven and Earth  
Calling you  
Who could stop you  
You're always so sure

You will be so alone my friend  
Who will be waiting for you at the end?

Alone under  
The dark sky  
The Moon will  
Never ask you  
Who you sleep with

Turning back?  
Going nowhere?  
Honestly  
Could you ever  
Feel so sorry?

You will be so alone my friend  
Who will be waiting for you at the end?

Consider at your final step  
Before the door  
Days go by and never come back  
Return to nowhere  
How could you lose your home  
To lose it all  
With time the wound gets deep  
And you were wrong  
You lost your home  
You lost our love

Hopeless on an  
Endless highway  
No control  
Will you ever find  
Your Fortune

Adventures in Hell  
It's for you  
no one asked you  
You're always so sure

If you ever have this choice  
Don't turn back  
If you ever find a way back home  
If you ever hear the call  
Don't come back

You'll be all alone
