

# Tear Down The Wall

## Demons & Wizards

Deep in the void  
My heart still bleeds  
Azrael

I am the only one  
Here on the edge of life  
Leaving this world behind  
Dance on the edge of time

I think it is time now  
To take what is mine

It all turns to black  
A prophet or fool  
Who's acting like god  
As wicked and cruel  
Follow my sign  
As the mad gnome says  
And now I'll dance  
Into the sun

Tear down the wall  
Let silence and madness reign  
There is no future nor the past  
Let us dwell in agony  
Tear down the wall - I'll wipe out starlight  
Let us tear it down - Let us tear down the wall

He can't hold it back  
Afraid of himself  
The path in his eyes  
He is lifeless inside - Nothing is real  
As the old gnome says  
I think it is time now  
To take what is mine

Tear down the wall  
My madness you will follow  
Tear down the wall  
And don't look back  
Tear down the wall  
There is no future nor the past  
Let us tear down the wall

The void seems like a cold asylum  
I search for the last leaf  
Hope, how I can find the answers  
If all guardian angels are gone
