

## Do Something

Denali

All I am now, fall for a way down  
More than a handshake or a grin  
More than a test for old friends  
I'll wait til Monday for a step outside  
You can pretend all you want to I don't mind  
More than a handshake or a grin  
More than a test for old friends  
One more chance to, chance to do something  
Pushed you down and out  
Farther than I should  
Wanted just enough  
A rescue never could  
It's only in the dark  
Eyes can be open or shut  
One more chance to, chance to do something  
All I am now, fall for a way down
