

# Everybody Knows

Denali

Open up  
I once was sleeping  
All remains are in safe keeping  
Looks like everybody knows  
I want to learn the secret my way  
It's right behind me  
So softly  
Centered in a field  
Hold to kill  
I'm in the same rotation  
Waiting on a clear reason  
Why this is the wrong way out  
It's right behind me  
So softly  
Lock down inside  
More of you buys my time  
I never knew this is the way it goes
