## Dreamer

**Dennis Wilson** 

I know a carpenter who had a dream Killed the man but you couldn't kill the dream Who said it was easy People gotta be free And the band keeps on playin'

I know people who want to go far Make big movies and become a star People got to dream Dreamer who said it was easy And the band played Play for me

Now I've seen people from near and far They couldn't get to heaven in their car Who said it was easy Driver drive on uh

Oooo let the wind carry your blues away That's all we're tryin' to say How 'bout a better day Fall in love Oooo ooh

And the band keeps on playin' Play for me

Do you wonder where you are Wake up in bed with a star That was easy Dreamer dream on And the band keeps on playing Play
