

# Eternal

Depeche Mode

Oh little one  
I will protect you  
And surround you with my love  
As well as any man can  
As well as any man could

I will be there for you  
Always  
And when the black clouds rises  
And the radiation falls  
I will look you in the eye  
And kiss you  
And give you all my love  
As well as any man can  
As well as any man could

You are my eternal  
Eternal  
Love
