

Poorman

Depeche Mode

Hey, there's no news
Poor man still got the blues
He's walking around in worn out shoes
With nothing to lose

Hey, he's down the road
Pushing alone with heavy load
Heading for no [?] to bought
Shovelling slow

Hey

Cooperations get the greats
Keeping almost everything they make
And tell us just how long it's going to take
For to trickle down
When really trickle down

Hey, he's down the street
Lying in the snow and see
Begging for something to eat
And looking me

Hey, passes by
Lay all down to catch his eye
Couldn't even tell you why
Of what happens inside

Cooperations get the greats
Keeping almost everything they make
Tell us just how long it's going to take
For to trickle down
When really trickle down
