## **Blind Equilibrium (A Complete Degeneracy Of Perfect Cosmological Princ**

Depresy

Within universe without illusions and light Wanders stranger in human masque Inside a cage of sickly mind Dwells clean state, sprouting seed, metaphysics disappears

From darkness we inure to live
Before we start to think
Gnawing worm is inside of me
Preparing in subtlety of heart as a great masterpiece

Musing obstructs internal rest
Knowledge of world drowns in scepsis, everything
vanishes in mist
Time evaporates to infinity
And touch of lethargy quickens latent acerbity

Fetter of life forged by the great ideas says
That religion and science transcend living - give it sense

That fallacy on people not living for their lives, But for hope which betrays them when eternal gloom will come

Collapse of all belief systems leads to universal nihilism,

Hopelessness and collapse of civilisation All those who search for eternal life will find eternal death

And those who search for logic will swallow absurdity

In their ash I'm wading towards the jerkiness Where illogical trends formed principles of logic Wittingly manipulated with "similar" as with "same" But nothing is the same itself and prevailing winds blind again

From ruins of assertions I'm gazing alone,
