

## Traveler's Song

Depswa

Well I'm on the road  
And I've traveled so far  
Through the roads and winding hills  
It seems my travels never still  
And I ride through the wind, rain, sleet or snow  
And will I ever stop if I do not for a while

And the road where I live  
Always seems to call (seems to call my name)  
And the road where I live  
Always seems to call... my name

And I have no worries  
And my troubles seem far away  
All is peaceful in this space  
With a smile across my face  
I don't need no one to show me all life has to give  
They say I have no one  
But I like the way it is

My name, my name, my name...

I don't have no worry  
About people and what they say  
Because I live a different way  
Was born to never stay
