

## Me Myself And I

Derailers

Misery loves company  
Right now it's just us three  
We'll have a real good cry  
Just me, myself and I

I once had everything  
All the treasures that love can bring  
But don't worry 'cause we'll get by  
Just me, myself and I

This loneliness is driving me crazy  
Sometimes I think, I'm going insane  
If I could just get over you, I know that we'll be fine  
Me, myself and I

Could say I'm glad you're gone  
And hope you never come back home  
But I know, I just can't lie  
To me, myself and I

I could stay behind closed doors  
Never showing my face anymore  
But there is no place to hide  
From me, myself and I

This loneliness is driving me crazy  
Sometimes I think, I'm going insane  
If I could just get over you, I know that we'll be fine  
Me, myself and I  
Oh yes me, myself and I
