

# Dreams

Derdian

Every day and every night  
I find the only way to see my life  
And when no one can see the time to fly  
Appears and disappears a light

Turns the moon and moves the sea  
I cannot stay with you, my destiny  
I want to cry, I want to take my dreams  
Where I can find again some peace

Into my dreams  
Into my dreams  
Into my dreams I feel your peace  
Into my dreams  
Into my dreams  
Into my dreams I feel your peace

Oh I take my mind and try to turn, turn around the world  
See the places where I want to go all around the world

Come with me into my dreams  
To live for evermore  
Time has changed this melody  
And there is no return

Oh I take my mind and try to turn, turn around the world  
See the places where I want to go all around the world
