

# Kingdom of Your Heart

Derdian

By the white and pale moonlight  
I can see the sweetest smile  
That has cleared the shades I passed through

Maybe there's a better life  
But I'm sure, no better than mine  
'Cause I share my destiny with you

No time to cry  
No time to die  
Until I'll be there  
There will be no place  
Safer than your arms  
Let me hold your dreams

You from my fantasy  
I feel you deep in my soul  
No way to divide our faiths

Now we're bound  
Memories will stay in a time left behind  
You made my fantasy  
And I won't leave you anymore  
I do believe in us, cause I'm in love  
And I will reign in the  
Kingdom of your heart

No time to cry  
No time to die  
Until I'll be there  
There will be no place  
Safer than your arms  
Let me hold your dreams

You from my fantasy  
I feel you deep in my soul  
No way to divide our faiths  
You made my fantasy...
