

Cobra Con

Derek Webb

You wanna rock with the cops on the front line
You wanna kick it with the people in the back
You strike a match and you throw back a cocktail
There's got to be a better way

Cus it is hard to stay
It is hard to wait
To out-love, to out-suffer them
(2x)

I wanna dream up a world I wanna live in
I wanna spray it on a building downtown
I wanna protest for
Cus there's got to be a better way

Cus it is hard to stay
It is hard to wait
To out-love, to out-suffer them

I don't wanna wait
No drugs nor sleep
I wanna hold your hand, really

God bless these bombs
Baptize this rope
Lie with us in the bed we've made

Cus it is hard to stay
It is hard to wait
To out-love, to out-suffer them
