

## Living In The City

Des'ree

Let's celebrate, let's celebrate, living in the city  
Yea yeah, aye aye, yea yeah, yeahhh!

Sitting in cafe's, drinking Brazil  
Watching old ladies struggle up the hill  
The sun is winking at me, giving me the eye  
There's no better place to watch the time trickle by

'Cause we're living in the city, there ain't no room for peace  
Wow, we're living in the city, there ain't no time for sleep  
Hey, we're living in the city, where everything is free  
Oh, where I want to be, hey hey, is living in the city  
City eh eeh, city eh hh

Walking 'round the buildings, watching pictures on the wall  
People lying homeless, got no love at all  
Standing next to history, everything is grand  
People from the country never understand

Find yourself a place (oh find yourself a place)  
Where there's caring and there's sharing  
Find yourself a space  
where there's loving (loving), hoping (hoping),  
touching, feeling, feeling

Living in, living in, living, living in the city  
Where I want to be, where I want to be  
Oh oh, ah ah ah, oh, ah ah
