

## Possessed and Defiled

Desaster

As the goal set it's goal  
The I will set it's mark!

Twilight falls and hate reign  
Demons close the rising gates  
Testimony of the wicked once  
Temptation feeds the killing hand

Spill your soul to the ones ahead  
Keep in enemies closest lines  
Watch the bleeding sky  
As they rot, eaten alive

Possessed Defiled  
Rejected by the ones obscure  
Possessed Defiled  
Infiltrate thy masters art  
Possessed Defiled

Lock their jaws into your veins  
Blasting strike hits from beyond  
Obscure treasure for your death remain  
My own kingdom, what fine domain

Trapped in mortal, soulless solitude  
The oath will face your fears of death  
Infiltrate bloodred skies  
Feel them rot, eat them alive

Possessed Defiled  
Rejected by the ones obscure  
Possessed Defiled  
Infiltrate thy masters art  
Possessed Defiled

Eat all alive!  
Teach them with his tongue  
Insatiable hellspawn arise in carnal lust  
Don't fear the powers of Satan  
Safe the breed  
Carnage for your souls to lead  
To empire of eternal dust
