

Anchor Grill

Descendents

Love in our hearts, we didn't know the world is complicated
Gleam in our eyes, time would show just what our love was made
of

Who knew the way things work in this world we've made for our
lives?

Where I work myself to death, and you raise the kids

Can't we try to amend our path of struggle for a while?
To pretend our lives are free and carefree still?
And that I just fell in love with you at the Anchor Grill

Money and time... we didn't know they'd be so hard to come by
"Look and you'll find"? We didn't know, that's just some fabled
school rhyme

We'll never get ahead in this world
Not 'til we move ahead of this world we've made for ourselves
Where there's no time to kiss, and no room to even breathe

Can't we try to amend our path of struggle for a while?
To pretend our lives are free and carefree still?
And that I just fell in love with you
At the Anchor Grill
It's our life, it's standing right in front of me
It's our time, and we know the way we wanna be
Can't you see?

So let's drop the kids at your folks, let's go
Where it's never too late for breakfast
And everything's gonna get better

Can't we try to amend our path of struggle for a while?
Can't we try to amend our path of struggle for a while?
To pretend our lives are free and carefree still?
'Cause I just fell in love with you
At the Anchor Grill
