

I'm looking straight down  
I'm sick and I need a friend  
I didn't know they came like that  
I'm thinking things now  
I thought I'd never think  
I didn't know they came like that

You came so quickly right in and out of my life  
I didn't know they came like that  
Did I ever tell you how much I love to hold you  
I didn't know they came like that

It doesn't even matter if I live or die  
The only thing that matters is you're by my side  
There's no turning back from this one

I judged too quickly, I've never been good at trust  
I didn't know they came like that  
But did I ever tell you how much I love to love you  
I didn't know they came like that

It doesn't even matter if I live or die  
The only thing that matters is you're by my side  
There's no turning back from this one  
No turning back from this one

It's not that I don't want your love  
But I don't deserve anyone  
I didn't know they came like that  
I will return to you  
When I am 32  
I didn't know they came like that
