Good Good Things

Descendents

I know a place up in the air
It's not very far, I've been there before
I know a place, cool and warm
cooling my blood, warming my heart

So come on down and walk with me, and tell me I'm your man I only want to know a couple of things about you Where were you when I was in so much trouble with myself And do you still believe in me like I believe

I've been thinking good good things about you cool and warm, good good things about you If you've been thinking good good things about me So cool and warm when you put your arms around me

On my own, I know where to go Living the lie, in your eyes I know a place, cool and warm Cooling my blood, warming my soul

So come on down and walk with me, and tell me I'm your man Let's see if I can get it right with you this time around I'm not afraid of losing you my little girl But do you still believe in me like I believe
