Descendents

What do I care what you think of me What do you think you mean to me You mean nothing can't you see And I don't want to smell your stinky beave

No Fat Beaver No Fat Beaver Swear I'm gonna leave her Can't stand her Fat Beaver

You look real nice to talk to But I can't stand to look at you Stop chasing me all over the place And get your fucking F B out of my face

You may be the only chance I've got But I think I'd rather be shot

Go away from me you fucking F B
