

# Summer Wind

Desert Rose Band

Anxious eyes wait by the window  
She waits she hears the wind blow  
Taking all she has that she knows  
It's a cold summer wind

No it's not the first time  
Her heart feels like the last time  
A never ending bad rhyme  
Like a cold summer wind

Can't you see what I've been through  
All I've done, I've done for you  
Can't you see your world won't end  
It's just a summer wind

Daddy's once a week girl  
The only one in my world  
Dry your eyes and comb your sweet curls  
I'll be coming back again

Yeah, your mom and I we both know  
Everyday you live we all grow  
Only God can make the wind blow  
Like a warm summer wind

Can't you see what I've been through  
All I've done I've done for you  
Can't you see your world won't end  
It's just a summer wind

I know you want us back together  
I know what we've put you through  
When you hear the wind blow  
It'll bring us close to you

Can't you see what I've been through  
All I've done I've done for you  
Can't you see your world won't end  
It's just a summer wind

Can't you see what I've been through  
All I've done I've done for you

Can't you see what I've been through  
All I've done I've done for you

Can't you see your world won't end  
It's just a summer wind
