## **Time Passes Me By**

## **Desert Rose Band**

It's morning, she wakes me with a soft loving sigh Like the sun shining through the western sky She holds me close against her breast, Such a sweet lullabye And I'll love her until time passes me by

She's a precious thing, a gift from God How can one be so true In a world filled with helpliness and gloom And no one knows just how I feel Just a personal reply And I'll love her, until time passes me by

Cloudy and blue
Our love shining through
A light from above Heaven's love
Timeless and true

From ages past and times to come
Love will always be alive
Healing hands of time for those who try
I was helpless and so confused
You came into my life
And I'll love you, until time passes me by
