

Holy Praise

Desperation Band

We crown You with adoration
Enthroned You upon our praises
For You are the King
And You have captured
Our hearts again
We join with the angels chorus
For we know our God is for us
You are the King
And You have captured
Our hearts again
The only true and living God
Lord of glory Lord of love
To You we sing our hearts we bring
With hands held high
Let holy praise arise
A song of love
A heart of thanks
