

I Know

Desperation Band

Whatever occurs I know
You carried the cross for my soul
You bled for my sin
Beginning life for all hope for all joy
For all unspeakable

Whatever the day we know
You conquered the grave
Saved the world
Now that we're free believing
What we know who we know
Is the truth so here we go

I know I know I know I know
You turned the world around
Now I have found the way
That can't be shaken
I know I know I know I know
You turned it upside down
Now I have found the life
That can't be shaken
And I stand on what I know

It's true so I believe it
It's true so I believe in You
