

Expectations

Destination Anywhere

This is our time to turn it on tonight
We got no regrets and no control we're in the light
And we're not alone check out your cell phone
And call everyone you know let's get away from home

And I want you to know I'm here
It's the perfect atmosphere
Take another can of beer
The party is over there we're near
So come on take me by the hand
As if you were my girlfriend
Everything will be alright
And this is our night

Expectations
Complications
I love to see your face again
I hate to see your new boyfriend
New direction
Old infection
Time to burn the boarders down
Time to get away from home

This is our time see the sun it shines
This is all I need to see to know it's our night
And this is not a dream she has always been
Your favorite girl in school
Now she becks to you from in the pool

Expectations
Complications
I love to see your face again
I hate to see your new boyfriend
New direction
Old infection
Time to burn the boarders down
Time to get away from home

You say the daily grind is hard I know
Forget your job your school and lose control
Cause we can make it right
You look afraid but kind
Let's make it our night
Make it our night

Expectations
Complications
I love to see your face again
I hate to see your new boyfriend
New direction
Old infection
Time to burn the boarders down
Time to get away from home
