

I can wait

Destination Anywhere

When I'm away you like to tell that you don't care at all
And when I'm here you'd never say you're feeling glad
The others say it's not okay we're riding for a fall
But when we split I'm feeling blue and you are sad

And will we ever learn to keep a better company
And will we ever learn or try to open up
We will give up cause we think that we will never fit
I don't know how it's about you I hope we'll not

When I'm away you like to tell that you don't care at all
And when I'm here you'd never say you're feeling glad
The others say it's not okay we're riding for a fall
But when we split I'm feeling blue and you are sad

I got insecurities I got problems with my sleep
But I also know that it's alright with me
I want to tell you what I feel but I'm afraid I'm going to fail

And in the dawn of day I know I want to be with you
But when the day is done I'm also into doubt
I'd really like to know the person that you really are
I'd really like to get to know you as you are

And will we ever learn to keep a better company
And will we ever learn or try to open up
We will give up cause we think that we will never fit
I don't know how it's about you I hope we'll not

I got insecurities I got problems with my sleep
But I also know that it's alright with me
I want to tell you what I feel but I'm afraid I'm going to fail
Until the day when I will know you I can wait
