

Take me away

Destination Anywhere

I'm holding a candlelight
It's so cold tonight
And I can't stop to think about
Why I'm not coming out
My cage

I'm feeling numb
I'm feeling dumb
And I had no one for so long
I would give everything to be strong

I am always on my own
searching for something to hold on
Would someone come

And take me away
there's nothing that holds me
take all the pain
and throw it far from me
I don't want me
and I am blind
Cause I can't see
what I would leave behind so
take me away
there's nothing that holds me
take all the pain
and throw it far from me
I don't want me
and I am blind
Cause I can't see
what I would leave behind

Tried to be like the others are
I am standing way too far
too far away
Who waits for me

Take me away
there's nothing that holds me
take all the pain
and throw it far from me
I don't want me
and I am blind
Cause I can't see
what I would leave behind so
take me away
there's nothing that holds me
take all the pain
and throw it far from me
I don't want me
and I am blind
Cause I can't see
what I would leave behind
